Middle of November News at

- **Happy Thanksgiving** to everyone involved with SCARC. We are thankful for all of our families, individuals, volunteers, board members, donors, and community supporters who make our mission in Sussex County rewarding and profitable. We love what we do at SCARC, and we are grateful for our one SCARC Family!

- **Bill Neal**, resident of our **Stanhope group home**, and participant in SCARC's Senior program sings to his peers at the **LACE (Learning At College Experience) program** class at Sussex County College. Bill is one of several students who attend the weekly program at the college. SCARC board member **Patti Nugent is the director of the LACE program**. For more information, contact Patti at pnugent@embarqmail.com.

- Through the generosity of **Joe Moretti**, SCARC has received a wheelchair lift vehicle for use in one of our residential programs. SCARC manages a fleet of 94 vehicles which is used to transport individuals to and from day programs and various activities. Our fleet is managed by **Barry Woodruff** in our facilities office. Thank you Joe for your favor.

- Our **Beemerhill and Fredon group homes** traveled to **Medieval Times** for a great meal and entertainment. Medieval Times is a popular location to enjoy because of the interaction with other the community as well as the actors in the shows.

- Our **Fredon and Wantage group homes** enjoyed a night of video games and food at **Laser One** in Wantage. Every so often, Laser One holds an evening for persons served by SCARC to enjoy games and fellowship. In the photo, Fawn from Fredon plays her games.

- Don't forget to respond to our **SCARC Foundation Annual Appeal** letter recently sent out by our SCARC Foundation office. As mentioned in our newsletter 2 weeks ago, our 2018 goal is to raise \$115,000 to be used to support services of SCARC and SCARC Guardianship Services. Be as generous as you can!
