## First of March News at ASCARC

- Members of one of SCARC's work crews with staff Edna (l), and Jon with staff Pam ® visited with Nicole Little to bring wreaths on Nicole's last day of work at SCARC after 18 years of employment. Nicole is moving on to another employment endeavor after her long tenure in SCARC's business office. We will miss her popular influence on all of us at SCARC. Thank you for your faithful service to SCARC.

- The **SCARC Explorer's group** was very excited about doing pottery at **A'La Art in Lake Hopatcong!** They were able to pick their piece of pottery and the glaze of their choice and paint it however they chose. They had wonderful conversations and laughs. Penny, the owner, was very friendly and accommodating to our needs. She explained to them how the pottery will be fired in a kiln and the glaze will brighten up and become shiny. She even gave us a discount! We pay for the pottery and that's it, no studio fees. I can't even tell you how happy the group was to do this project. They are still talking about it and asking when we are going back.

- The **SCARC Senior Program** is holding our **Second Annual Week-Long Winter Olympics!** Each day we have had a different game for all to enjoy. In the photo **Randy Wolff** is participating in our Peer Ball Olympic Game. Good sportsmanship has been our theme this week as we cheered on our peers. We will be ending the week with awards for all and a homemade lunch Friday.

- At **Special Olympics New Jersey Bowling Sectional competition** last week, **Leif** is pictured with some of the fine police officers of Bayonne who helped hand out the medals to our athletes. He took first place at Hudson Lanes. In addition, **Lynn and Judith** celebrate with their policeman at the competition. Congratulations all!
