Mid-November News at

- The **LACE (Learning At College Experience) program at Sussex County Community College** has become very popular with our young adults. Created by **Patti Nugent** (past teacher at Kittatinny High School and current SCARC board member), the program is host to 58 students who meet weekly at the college. In the photos, at the LACE Halloween party, Joe watches the great pumpkin race on the lake, and Bill sings “Blue Hawaii” to the audience. Both Joe and Bill live in SCARC residences. Good work guys!

- **Linda Elsaesser (I)**, physical therapist and assistive technology professional, is pictured with **Kim Potsel** direct support professional from the Eickmann Center. Linda provided an **Ergonomic and Adaptive Equipment Training** to all day habilitation DSP’s and supervisors on October 16. Linda has been providing assistive technology services to SCARC individuals since 1998, and continues to share her expertise with our staff, ensuring best practices are utilized in all of our day habilitation programs. Thank you Linda!

- **Sean Carroll (center front) from our Sussex Group home and his Special Olympics coach, Bill Hugaboom (behind Sean)** participated in the Special Olympics Golf Fall event at Mountain View Golf Club on October 26, 2019. They won the gold medal for their group and are looking forward to the new season next year! Sean and Bill have been playing Special Olympics golf together for several years. Congratulations Sean and Bill!

- Applause and shout outs go to **Arlene Morgiewicz of our Sussex group home** for achieving 30 years of employment with SCARC. Arlene started out in our day programs and employment department and then moved to residential services. Congratulations Arlene for your stellar achievement! In the last 3 months, our Sussex group home staff have enjoyed two 30 year awards, and one 10 year award. Wow!

- Our **Hillside group home** held its family brunch this past weekend on 11/3. Everyone had a lovely time and our “mimosas” (OJ, sparkling water, and pineapple juice) were a hit! We played a slideshow movie of our vacation photos from Wildwood for the guardians and family members, and enjoyed a brunch of pinwheel sandwiches, deviled eggs, mini muffins, and a fruit platter. The photos show happy family members.
