

Dear Families, Parents, Guardians, and Staff of SCARC:

We at SCARC are continually keeping in touch with our group home and apartment residents each day, and we are essentially supporting all in our SHELTERING IN PLACE policy. Our day program staff have been redeployed to our homes to supplement our staffing needs in our residential programs.

In accordance with NJ DDD guidelines, we are now announcing that our day programs will continue to be closed indefinitely until we are given an ALL CLEAR from the State. This will include our day habilitation centers, supported employment, career planning, therapies, transportation services, and family support respite programs.

This is killing me to have all of this happening at SCARC, but we join the whole world to endure what is happening with the COVID-19 virus. We look forward to the day when all of this is in our rear view mirrors.

If you have any questions, you can email me at rlecher@scarc.org. Thank you for your patience and understanding. Stay strong, courageous, and safe.

Richard C. Lecher, Ph.D.
