

# This Week at ASCARC

Volume 7, Issue 18

Friday, June 19, 2020

## More June News at ASCARC

- **Two corrections of note to make:** in last week's newsletter, we wrongly said that Sharon Wade was manager of Lenape group home; the manager is Sharon Davis. Also, in the June 5 issue of our newsletter, we mentioned "the men at Stillwater" and we should have said "the men at Hillside". Sorry to all.

- **Carol and Brad from our Beemerhill group home** enjoy playing Bingo during our **Zoom at Noon** sessions on Friday's. Recently, Carol became a winner at one of the Bingo games. Our Zoom at Noon sessions are very popular, and have been supplemented by our Zoom sessions in the morning and the afternoon. Our **Day Habilitation on line programs** span 5 hours each weekday. Thank you all who make these sessions possible.

- Two of our ladies at our **Holly group home in Frankford** are preparing their garden for summer and autumn harvesting. Getting exercise outdoors is a good thing to keep in shape during the quarantine. Rachel and LeeNova are our gardeners of the week. In addition, the ladies take a hike at **Stokes State Forest** to get more exercise!

- **Tom Post**, long time SCARC board member, has been honored by the **SCARC Foundation** with the **Lifetime Achievement Award** given to Tom at the SCARC Foundation Honors dinner held on zoom this past Wednesday evening. The virtual event also gave two other honors, **Sussex Rural Electric Cooperative**, and **Ray Nisivoccia**. **Steve Allan WSUS Radio** was our evening emcee. Entertainment was performed by **The Carter Calvert Roger Cohen Trio**.

- Our active **ladies at our Stillwater group home** have recycled milk containers and made hanging plant holders. They are displayed at our front entrance to the home. **Liz, Faye, Sharon, and Joyce** are proud of their work. Absent from the photo is Dawn. Great work ladies!

- **Happy Father's Day to all of our Dads this Sunday!**
