Friday, June 26, 2020

End of June News at ASCARC

- Some of our **residents at our Lenape group home** in Stanhope have been planting indoor plants to enjoy their hobbies in horticulture. We all hope they can plant them outside along their beautiful home.

- **Dan Fisher from our Warbasse group home** takes a ride along the broad driveway to get his exercise and to enjoy the sunny weather. Good job being safe with your biker helmet.

- **Carol and her staff Michelle** are taking a walk in the neighborhood around their **Beemerhill group home** to enjoy the great summer weather and get their daily exercise. Everyone's out moving around to keep their bodies and lives in shape.

- **Virtual Summer Experience day camper James** is active at home making the daily craft as directed by **Daele Phlegar**, senior coordinator of community services and director of our **2020 Summer Experience** program. The first 2-week session is virtual, but the 2nd 2-week and 3rd 2-week sessions will be live with 10 campers in each session. Each group will be split into 5 person activities led by 2 trained staff who will guide campers throughout local outdoor activities. Supporting our Summer Experience program this year are R&R Foundation, James Verhalen Family Foundation, SCARC Foundation, and Branchville Businessmen's Club.

- **Dan and Jim from our Hardyston group home** visit our own Highpoint State Park to enjoy the beauty of the park and to get needed exercise while hiking in the Park. What a beautiful day to go to the park.

- **Andrew at our Hillside group home** is grilling the steaks at the group home grill with help from assistant manager Ryan. Before the pandemic, Andrew was working at **Perona Farms** as a food prep staff, and thus, he enjoys learning about cooking.

- The **SCARC Foundation** has announced that SCARC's 29 program teams have raised \$26,944 which was donor matched with \$6,729 totaling \$34,258 from the virtual Walkathon this year. The total raised from our Walkathon was \$132,000! We are so excited!
