

# This Week at ASCARC

Volume 7, Issue 24

Friday, August 28, 2020

## Later August News at ASCARC

- **Richard Malmberg** has learned about voting at our virtual day habilitation program through the help of a presentation by the **New Jersey Self-Advocacy Project** within the Arc of New Jersey. Now Richard, who lives in our Hillside group home, will be applying for his voting privilege with his completed application to vote. Congratulations Richard for this important choice!

- The **SCARC Foundation** has been selected by **Subaru World of Newton** to participate in Subaru's Share the Love program as a Hometown Charity! This year's event will run November 19, 2020 through January 4, 2021. The **Subaru "Share the Love" Event** is entering its 13th year for Subaru of America, Inc. During the Share the Love event, for every new vehicle purchased or leased, Subaru donates \$250 to the purchaser's choice of participating charities, including the **SCARC Foundation**. Over the past twelve years of the event, Subaru and its retailers have made a real impact, donating more than **\$170 million** to a wide range of both national and local charities. The last six years Subaru retailers have been able to select a Hometown Charity to receive donations, in addition to the national charities, and we look forward continuing the Hometown Charity program this year to help increase the impact Share the Love is making in local communities across the country! Thank you Subaru World of Newton for selecting SCARC!

- The **ladies at our Frankford group home** have been actively using their "green thumbs" to make their outside garden very fruitful this season. The ladies enjoyed planting and watering the garden. "We grew tomatoes, zucchini, butternut squash, eggplants, lettuce, peppers, cucumbers and variety of herbs that we used for cooking", says manager **Desiree**. "The Frankford Love Bugs have a green thumb. Loving our fresh vegetables."

- **Residents of our Sussex group home, Nina, Sean, and Krista** show their art creations made in conjunction with our daily virtual day habilitation program. Each day, our individuals at SCARC enjoy a 4-hour period of day activities to enrich everyone's lives. In September, we will be adding one more hour; so our program will be 5 hours per day.

- **Andrew Sharick (right)** displays his painting that he painted as part of our virtual day habilitation program activities which emphasize popular art work. Several of our residents are very interested in art activities. Budding artists love our virtual day program! **Sharon Schmid** (far right) loves her "in and out" weaving as part of our art program.

- Stay healthy everyone; we still have no residents with COVID! **We are thankful and appreciative for our diligent staff, our CHAMPIONS!**
