## More September News at SCARC

- The **LACE (Learning At College Experience) program at Sussex County Community College** has begun its fall semester. One of the student, **Nancy and her father Frank** are ready to learn and be a part of the college community. The LACE program was started by SCARC board member and retired Kittatinny high school special education teacher **Patti Nugent** in 2008. The program is now an official part of the college offerings, and is in its 14th year. This semester there are 48 adult students in the program, and the classes meet each week at the college.

- Joe from our Individualized Living Program** enjoys cooking at our **Day Hab Goes Digital** cooking class. Joe is cooking vegetable soup using a delicious recipe from **Jenny Torino, SCARC's registered dietician**, who is a contributor to our day hab virtual offerings of interesting lessons. In the cooking class, participants can learn about nutritious meals and engage in the program while hearing the instructions for cooking. Good job Joe, and thank you Jenny for your recipe.

- Staff and residents of our Wantage group home** were thrilled to sail on Lake Hopatcong on the "Miss Lotta" sightseeing ship during one of our recent "great weather" days recently. The ship was named after the famous vaudeville actress Lotta Crabtree, who summered in Lake Hopatcong back in the day. Several of group home residents have enjoyed the cruise around the lake over the past years, and this year was no exception. The cruise is a great outdoors and healthy activity.

- We had an error in last week's This Week at SCARC. The SCARC Foundation Pat Romano Golf outing auction address is [www.biddingforgood.com/scarcfoundation](http://www.biddingforgood.com/scarcfoundation). Please look at the items and bid to support the SCARC Foundation.

- Staff Nancy and food pantry volunteers Gail, Jim, and Cindy** pack a box of food for distribution to needy families in the northern part of Sussex County. Our **Heritage Harvest Home program in Hamburg** is now open for food distribution. SCARC's second food pantry is at our Hampton Community Center in Hampton and is also open for business. After being closed for a year due to COVID mandates, we are glad to be open for our food recipients.

- The **ladies at our Stillwater group home** love being outdoors on a beautiful day at which time they enjoy painting on the picnic table. Small group activities such as this promote a family oneness which all ladies cherish. The ladies were really excited about doing this craft but were unable to do it during zoom because of bad internet connection. Today, Sharon (left), who is in senior program, showed the rest of the ladies how to do this craft, while enjoying the beautiful weather!
